ToolkitGo is a technology-enabled marketplace that connects customers with independent service professionals for household and maintenance services including but not limited to plumbing, electrical work, appliance repair, cleaning, carpentry, painting, and maintenance services. ToolkitGo facilitates bookings, communications, and payments, while actual services are performed by independent professionals.

2. User Eligibility

Users must be at least 18 years old and capable of entering into legally binding agreements under Indian law. Where a booking is made on behalf of an organization or business, the user warrants they have the authority to bind that entity.

- Providing accurate, current, and complete information during registration.
- Maintaining the confidentiality and security of login credentials and OTPs.
- All activities and bookings conducted through their registered account.

4. Booking & Service Execution

- Customers may request services through the platform based on location and professional availability.
- Service timings may occasionally vary due to traffic, location, emergencies, or operational factors.
- Any diagnosis, inspection, spare parts replacement, or additional work identified on-site must be communicated and agreed upon with the customer before execution.

- Spare parts, consumables, and extra tasks outside the initial booking scope will incur separate, mutually agreed charges.

6. Service Professionals (Independent Contractors)
